

WE REFER TO YOUR REQUEST FOR A QUOTATION CONCERN-
ING DISASSEMBLING, REASSEMBLING AND CALIBRATING THE STATINTL
STATINTL [REDACTED] STEREOCOMPARATORS.

WE PROPOSE TO FURNISH YOU WITH [REDACTED] STATINTL
SERVICES TO ACCOMPLISH THE ABOVE AT A RATE [REDACTED] STATINTL
PER EIGHT HOUR DAY. IT IS OUR ESTIMATE THAT NOT MORE
THAN TWO DAYS WILL BE REQUIRED FOR DISASSEMBLY OF EACH
INSTRUMENT AND THAT APPROXIMATELY FIVE TO TEN DAYS,
PER INSTRUMENT, WILL BE REQUIRED FOR THE REASSEMBLING
AND CALIBRATION.

STATINTL THE SERVICES [REDACTED] CAN BE OFFERED TO
YOU ANY TIME AFTER NOVEMBER 15, 1962. UNTIL SUCH TIME
WE ANTICIPATE THAT HE WILL BE OCCUPIED ON OTHER ASSIGN-
MENTS. WE SUGGEST THAT YOU KEEP IN MIND OUR RECOMMENDA-
TION THAT AFTER REASSEMBLING A STEREOCOMPARATOR THAT
SEVERAL DAYS, BUT PREFERABLY A WEEK, ELAPSE BEFORE A
PRECISE FINAL CALIBRATION BE MADE. IN THIS WAY WE
ASSURE THAT THE INSTRUMENT REACHES A STATIC CONDITION
WITH RELATION TO ITS NEW ENVIRONMENT. ON THE OTHER
HAND, IF IT IS MANDATORY THAT THE INSTRUMENT BE
ALIGNED AND CALIBRATED IMMEDIATELY IT WOULD BE WISE
WITHIN THIRTY DAYS AFTER THE INITIAL CALIBRATION TO
MAKE A QUICK CHECK TO DETERMINE WHETHER ANY CHANGES
HAVE TAKEN PLACE.

Declass Review by NIMA/DOD

STATINTL

Approved For Release 2002/07/10 : CIA-RDP78B0474A000900050127-8
